FROM: Bill Newton
Bill Newton
Acting Director of Finance

SUBJECT: FY 2010 General Fund Drawdown Schedules

In order to assist the Department of Finance in allocating the anticipated General Fund dollars to those agencies with General Fund appropriations, a drawdown schedule is requested of all agencies receiving General Fund transfers.

Prepare a list of anticipated General Fund expenditures by funding for the full twelve months of FY 2010. This list should be broken down reflecting funds to be drawn on Wednesday of weeks for which the funds are needed. Please be reminded that the total funds requested on the drawdown schedule by quarter must agree with the quarterly totals as reflected on the EBO Form No. 8. In order to assist in the timely planning of General Fund releases, submit your drawdown schedule to the Executive Budget Office along with your agency's Operations Plan. **All submissions are due to the Executive Budget Office (EBO) no later than Friday, August 7, 2009.**

Please limit your requests to a minimum draw as needed in order to provide sufficient operating funds for all agencies. If anticipated revenues are insufficient to meet all weekly drawdown requests, you will be asked to revise your requests accordingly.

GENERAL INFORMATION

The purpose of the Operations Plan is to ensure that the objectives of the Legislature's FY 2010 appropriations are satisfied. The fulfillment of these intentions will be monitored by the preparation of quarterly budgets based on legislative appropriations. According to the Budget Management Act, Section 41-19-1 et. seq., *Code of Alabama* 1975, the State Department of Finance will "review each Operations Plan to determine that it is consistent with policy decisions of the Governor and appropriations by the Legislature, that it reflects proper planning and efficient management methods and that appropriations have been made for the planned purpose and will not be exhausted before the end of the fiscal year."

Each budget unit must prepare an Operations Plan showing expenditures for each quarter of the fiscal year. The Operations Plan will identify the personnel costs, employee benefits, travel, supplies, equipment purchases, etc. Expenditures, contracts, and purchase orders in any one object code may not exceed the total annual amount budgeted for that object, fund, and appropriation unit. The plan must also identify the funding sources of each entity for the fiscal year. An Operations Plan for each activity and appropriation unit must be approved by the agency head and compiled into an agency Operations Plan representing the annual operating budget for FY 2010.

The Director of Finance will approve the Operations Plan if satisfied that it meets the above requirements. Otherwise a revision of the plan in whole or in part will be required. The Director of Finance may also modify or withhold the planned expenditures at any time during the appropriation period if it is found that such expenditures are greater than necessary to execute programs at the level authorized by the Governor and the Legislature or that the revenues and resources will be insufficient to meet the authorized expenditure levels.

The Department of Finance will continue to allot funds according to the Operations Plan; therefore, special emphasis should be applied to the estimated quarterly allotment needs of each agency and appropriation unit. A monthly Budget Management Report (P440) summarizing comparisons of actual and budgeted expenditures based on the Operations Plan will be available to the agencies in FY 2010 and will be utilized by the Department of Finance as a means of monitoring agency expenditures.

FY 2010 APPROPRIATION HIGHLIGHTS

(A) **Due Date** – All agencies with internet capabilities must electronically submit the 2010 Operations Plan by **August 7, 2009**. Agencies without internet access must submit their plan manually and will need to contact the EBO for an operations plan package.

(B) **General Fund Distribution** – When submitting your agency Operation Plan, departments should distribute the General Fund appropriations equally among the four quarters or send a letter of justification to the EBO. Agencies that receive appropriations from the General Fund can review Act 2009-550 for the General Appropriation Bill that passed through the regular legislative session.

(C) **American Recovery and Reinvestment Act of 2009 (ARRA)** – In addition to all other funds received in the General Fund Appropriation bill, funds received under the American Recovery and Reinvestment Act of 2009 (ARRA) are conditionally appropriated upon receipt of additional federal funds, the recommendation of the Director of Finance and the approval of the Governor. As your agency develops the 2010 Operations Plan, be mindful of providing copies of all information and reports to EBO as required as a result of the federal legislation. In addition, the General Fund Appropriation Bill, Section 9 states “the Department of Finance may charge agencies and other recipients of federal stimulus funds for the cost of administering the American Recovery and Reinvestment Act of 2009.”

(D) **Rollover** – All agencies with General Fund, Education Trust Fund and any Other Funds unexpended and unencumbered for the fiscal year ending September 30, 2009, will revert and be reappropriated after October 1, 2009. Funds from the Children’s First Trust Fund are not covered by this section. Reversions that occur during and after the 2009 fiscal year’s 13th Accounting period cannot be reappropriated. Additionally, reappropriations must occur to the same programs and/or earmarkings from which reversions occurred unless a program change has been approved. Agencies must contact their budget analyst in the Executive Budget Office to verify sufficient cash and to complete the necessary forms for the rollover before additional appropriation authority will be granted. All rollover funds will be handled as an Operations Plan Revision after October 1, 2009. Do not list this rollover on your original Operations Plan. (General Appropriation Bill, Act 2009-550, Section 3 and ETF Appropriation Bill, Act 2009-330, Section 18)

(E) **Travel – Mileage Rate** - Effective January 1, 2009, the mileage rate paid to persons traveling in privately owned vehicles on official business for the state **decreased** to 55 cents per mile. Please see the Comptroller’s website if you have any questions.

(F) **Longevity Bonus** – No additional appropriation authority is provided for longevity increases. However, the *Code of Alabama* 1975, Section 36-6-11, states that “each fiscal year in which an employee **does not** receive a cost of living increase in compensation, each per annum amount shall be increased by one hundred dollars (\$100) per year to a maximum amount of one thousand dollars (\$1,000) for 25 years of total service as long as the employee remains in service.” Be sure to budget sufficiently in the first quarter for longevity which will be paid in December.

<u>CURRENT Longevity Pay Increments</u>		<u>EXAMPLE of the Increase:</u>
5 + years of service	\$300	\$400
10 + years of service	\$400	\$500
15 + years of service	\$500	\$600
20 + years of service	\$600	\$700
25 + years of service	\$700	\$800

(I) **Education Trust Fund Agencies** – Agencies who receive funding from the Education Trust Fund should review Act 2009-339 that passed during the Regular Session for appropriation authority prior to completing your agency’s Operations Plan.

SUPPLEMENTAL INFORMATION
TO
PROVIDE WITH OPERATIONS PLAN

1. **Draw-Down Schedules** - All agencies that receive State General Fund transfers into another fund are required to submit a draw-down schedule to the EBO that lists the amounts and dates of the requested transfers and the respective accounting codes and names.

2. **Program Changes** - If your appropriation on your Operations Plan differs from appropriations made by the legislature either in total or by program totals, you are required to submit with the Operations Plan a program change letter. The letters should include a clear explanation of the change, the authority for the change, the program unit and fund names, and the amount. This letter must be addressed to and provide a signature line for the Governor. Without this approved letter, the EBO has no authority to load your operations plan into the Central Accounting System if the program appropriations differ from legislative intent.

3. **Additional Appropriations** – Agencies that are increasing appropriation authority at the beginning of the fiscal year due to additional grant funding received by the Congress of the United States or from contributions must provide proof of additional funding to the EBO. In addition, if the increase is for a new program or purpose the agency must include copies of the approval granted by the Chair of the House Government Appropriations Committee, the Chair of the Senate Finance and Taxation-General Fund Committee and the Governor before the EBO loads the additional appropriation.

4. **Earmarked Appropriations** – Agencies whose appropriated funds include earmarked or line-item funding to be passed to another agency or entity should include information in their Operations Plan to the EBO that outlines the agency to receive the funds, the address or location of the agency, a contact person from the agency or entity, and an explanation of how the funds will be used.

COMPILATION OF OPERATIONS PLAN

- STEP 1 The legislature has made appropriations from funds for each appropriation unit. The agency head will allocate appropriations to each activity within the related appropriation unit. Once the allocations have been made, prepare one Operations Plan for each combination of a single fund, activity, and appropriation unit.
- STEP 2 Prepare one summary Operations Plan for each appropriation unit, combining all activities and funds allocated to that appropriation unit. This Operations Plan total should match the legislative appropriation for the respective program.
- STEP 3 Prepare the agency summary including **all appropriation units, activities, and funds**. This Operations Plan total should match the total legislative appropriation for the agency.
- STEP 4 Forms should be arranged in the following order for submission to the Executive Budget Office:
1. Cover letter
 2. Program change letter (if you are requesting a program appropriation revision)
 3. General Fund Draw-Down Schedule (if applicable)
 4. Operations Plan EBO Form No. 8 - Agency Summary
 5. Operations Plan EBO Form No. 8 - Appropriation Unit #1 Summary (if applicable)
 6. Operations Plan EBO Form No. 8 – Activity #1 Summary
 7. Operations Plan EBO Form No. 8 - Activity #1 Fund #1
 8. Operations Plan EBO Form No. 8 - Activity #1 Fund #2
 9. Repeat 5-8 above if there are more appropriation units, activities, or funds
 10. Employee Staffing Plan - EBO Form No. 9
 11. Capital Projects List (Refer to page 15, item 11)

EXHIBIT A

This compilation is an example of an agency with two appropriation units, two fund numbers, and three activities. Starting at the lowest accounting level, agencies are required to prepare one Operations Plan for each fund-activity-appropriation combination, and then collapse each into a summary Operations Plan on the respective appropriation unit level. If you have more than one appropriation unit, further collapse these into an agency level Operations Plan summary.

EBO FORM NO. 8 INSTRUCTIONS

- *1. Fill in revision number and date only when revising the original Operations Plan.
2. Fill in the appropriate fiscal year - FY 2010.
3. Fill in the 3-digit agency number on each page of your Operations Plan.
4. Fill in the name of the agency submitting the Operations Plan.
5. Fill in the appropriation unit name and 3-digit code number.
6. Fill in the activity name and 4-digit code number.
7. Fill in the budget organization number and name only if your agency is required to budget at the organization level by the Executive Budget Office. If you are not sure, contact your budget analyst.
8. Fill in the objective only when revising the original Operations Plan.
9. Indicate the number of employees estimated to be on the payroll for each quarter. Salary estimates for all new positions should be entered at the **minimum pay rate**. A temporary or part-time employee should be shown on a full-time equivalency basis; i.e., if an employee works 20 hours a week, show that person as 0.50 during the quarters employed. Round to two decimal places.
10. Review the “Expenditures by Major Object Code” section beginning on page 13 to complete objects 0100 through 1600 utilized by your agency.
11. Total - Refers to the aggregate total of expenditures by major object codes.
12. Total Expenditures - An aggregate total of all expenditures for each quarter.
13. Source of Funds - List the funds that will be used to pay for total expenditures for each quarter. List the 4-digit fund number and name from which expenditures will be made. Only one fund number should be on each page; however, it may be listed twice. For example, if you received an additional appropriation from the same fund during the fiscal year, you should list this supplemental appropriation on a separate line labeled with the related act number. Only summary pages may show more than one fund number. Do not list any conditional appropriations unless these monies have been released. To prevent unnecessary revisions throughout the fiscal year, please estimate

federal funds and other receipts as accurately as possible. Include and identify all legislative appropriations in addition to the General Fund and ETF, if applicable.

- (a) Prior-Year Cash Balance Brought Forward - For the few agencies that are authorized by law to carry funds forward, the Source of Funds section must also include the caption "Prior-Year Cash Balance Brought Forward," which consists of any unexpended prior-year appropriation which did not revert to the fund from which it was appropriated.
- (b) Transfers Between Agencies - Any agency expecting a transfer of funds from another agency should list the transfer as a separate source of funds. Show the amount of the transfer, the number of the fund TO which the money is being transferred, and the name of the agency FROM which the money is being transferred; e.g., 0302 - Transfer from the Department of Industrial Relations.
- (c) Transfers From State General Fund and Education Trust Fund - Any agency receiving a transfer of funds from the State General Fund or Education Trust Fund should show the amount of the transfer, the number of the fund TO which the money is being transferred, and the name of the fund FROM which the money is being transferred; e.g., 0100 - State General Fund Transfer.

- 14. Total Source of Funds - An aggregate total of all sources of funds for each quarter. This total **must** equal Total Expenditures for each quarter.
- 15. Do not write in this space: "EBO USE ONLY".

After completing a separate Operations Plan page for each appropriation unit, fund, and activity, compile and number all sheets and create an agency summary sheet that sums all the other totals up to an agency total. Enter the word "SUMMARY" where the headings and codes would normally appear. Sign and date the top agency summary page of the Operations Plans. The approving agency head should be the chief executive officer for the agency, department, board, bureau, or commission. Refer to the compilation steps on pages 8-9 for an illustration.

Budget so that actual expenditures do not exceed total appropriations. The quarterly expenditures should include any anticipated cash disbursements and purchase orders expected to be issued during that quarter. Year-to-date object code expenditures may not exceed the annual amount budgeted for each respective object code.

*Numbers correspond with the example of EBO Form No. 8 provided on page 12.

REVISIONS TO OPERATIONS PLAN

1). Operations Plan Revisions (EBO Form No. 8):

Operations Plan revisions may be made in the current and remaining quarter(s) only. No revisions will be accepted for prior quarters. A revised Operations Plan is necessary when:

- Additional dollars are received during the fiscal year, which were not included in the original Operations Plan.
- Additional allotment is needed in the current or a subsequent quarter above what was included in the original Operations Plan.
- Adjustments between line items of object codes are necessary to meet unexpected obligations.
- A reduction in allotment is necessary due to a shortfall in receipts or proration.
- A program, or appropriation unit, change is requested by the agency and approved by the Governor.

Procedures for Preparing Form No. 8 for Revisions

1. Any revisions made during the year to the original submission should be prepared on EBO Form No. 8 and submitted for approval as an original with **one copy** to your budget analyst.
2. Include a cover memo from the agency head giving specific reasons why the change is necessary. You should address each object code that is revised. This memo is required regardless of the funding source of the revision.
3. In the upper left corner indicate the revision date and number. Each revision should be numbered as a single package regardless of how many activities or different EBO forms are involved. An updated laser-printed Operations Plan (Report P421) will be available to your agency at the end of each month reflecting any Operations Plan revisions that were processed during that month.

4. Enter complete heading information by indicating the fiscal year and all names and code numbers for the agency, appropriation unit, activity, and organization (if applicable).
5. Enter only the amount of increases or decreases to the budget, not the new total resulting from the revision. All changes must balance horizontally and vertically on the form. Show all reductions as a negative amount in parentheses.
6. The Total Source of Funds line must equal the Total Expenditures line. If the totals are zero, enter a zero to indicate that calculations have been performed.
7. In the space labeled "Objective" on the revised Operations Plan EBO Form No. 8, include a brief narrative explanation of the necessity for the revision. The detailed justification will be included in the cover letter.
8. Each Operations Plan revision submitted must include a separate EBO Form No. 8 for each fund, appropriation unit, and activity combination that is affected with a summary total page on top of the package.

(An example of EBO Form No. 8 Revision is provided on page 21.)

2. **Allotment/Appropriation Revisions (EBO Form No. 101):**

The Operations Plan revision (EBO Form No. 8) along with the EBO Form No. 101 must be submitted as a package to the Executive Budget Office. Revisions for up to three different fund and appropriation unit combinations may be shown on the same EBO Form No. 101.

- (a) An Allotment/Appropriation revision is necessary when:
 - Additional dollars are received during the fiscal year, which were not allotted and/or appropriated in the original Operations Plan.
 - A reduction in allotment/appropriation is necessary due to a shortfall in receipts or proration.
 - A program, or appropriation unit, change is requested by the agency and approved by the Governor.
 - Additional allotment is needed in the current or a subsequent quarter above what was included in the original Operations Plan.

Procedures for Preparing Form No. 101 for Revisions

Changes in Quarterly Allotment(s)

1. Revisions to the current quarter allotment must be entered in the top portion of the EBO Form No. 101 labeled "Current Quarter Allotment Revision". Only current quarter allotment revisions should be indicated on this section of the form and the revision must reflect only the amount of allotment change.
2. Reductions in allotment amounts should be shown in parentheses.
3. No allotment revisions should be entered for subsequent quarters. These allotments are automatically computer-generated from your operations plan.
4. The amount of allotment change should be the same amount shown on your Operations Plan for the current quarter total "Source of Funds". If there is no change in the current quarter on the Operations Plan, do not fill out the top portion of the attached EBO Form No. 101.

Changes in Annual Appropriation

1. Actions that increase or decrease annual appropriation amounts must be reflected in the bottom portion of EBO Form No. 101 labeled "Appropriation Revision." The amount of change should be listed, not the net result of the change.
2. Reductions in appropriation amounts should be shown in parentheses.
3. Appropriation revisions must be identified by type of revision in one or more of the 8 categories provided on EBO Form No. 101. A "remarks section" has also been provided for further explanations (such as legal citations, contract numbers, cash receipt numbers of deposits with the State Treasury, or other source documentation.) justifying the appropriation revision.
4. Space has been provided for revisions for up to three different fund and appropriation unit combinations to be shown on the form.
5. Any actions that increase annual appropriation amounts should be accompanied by documentation for the increase. Acceptable documentation includes items such as grant award letters or notices, supplemental acts, certificates of deposit, etc.

6. Any actions that increase annual appropriation amounts from grants or appropriations from Congress of the United States for new programs or purposes, including but not limited to homeland security grants, must be approved by a majority of the Chair of the House Government Appropriations Committee, the Chair of the Senate Finance and Taxation – General Fund Committee and the Governor prior to expenditure; in accordance with Section 12 of Act 2009-550.

EBO FORM NO. 9 INSTRUCTIONS

- *1. Submit a revised form with a revision number for any personnel changes during the year.
2. Fill in the fiscal year and name of the agency. Only one EBO Form No. 9 is required for the entire agency, even though it may be more than one page.
3. In the first two columns enter the class name and five-digit class code (provided by State Department of Personnel) of all current employees and anticipated new hires.
4. In the next column, for each classification listed, enter the actual number of full-time employees (not vacant positions), on payroll as of October 1, 2009, the beginning of the new fiscal year. If these numbers are anticipated to change due to filling vacant or new positions, promotions, terminations, or other changes during the year, enter the new total for the related classifications under the second dated column, September 30, 2010, the end of the fiscal year.
5. The next two columns are labeled for any actual and anticipated part-time employees at the beginning and end of the year, respectively. Follow the same instructions for these columns. Use whole numbers, not fractional full-time equivalencies. Use extra pages as necessary, and show totals on the last page.
6. The last two columns require entry of the total annual salary for the ending fiscal year and the new fiscal year. The new fiscal year will be a projection of total actual salaries to be paid during fiscal year 2010 for the listed classifications.
7. Enter the total amount budgeted for each classification for FY 2010. This total **must equal the total on the agency summary EBO Form No. 8 (Operations Plan) for Object 0100 Personnel Costs.**
8. Enter the total amount budgeted for longevity pay, termination costs, board members compensation and special allowances if applicable.
9. Calculate your totals for each column, and round all numbers to the nearest dollar.
10. Obtain signature approval of the agency head or an authorized agent and fill in the date. If you have additional sheets, only the top copy must be signed.
11. Fill in the number of pages for EBO Form No. 9.

NOTE: No requests to fill new or vacant positions will be approved during the fiscal year unless the position is budgeted, as provided in § 41-19-10(d), *Code of Alabama 1975*.

*Numbers correspond with the example of EBO Form No. 9 provided on page 24.
