04	Strong guest visitation due to weather conditions.
05	Q2 Strong Guest visitation due to weather conditions
05	Strong guest visitation due to weather conditions.
10	Most of the gun deer hunts on the WMAs no longer require hunters to check in and get a permit. Therefore numbers for use and harvest are more estimates rather than known as they used to be.
10	Q2 Most of the gun deer hunts on the WMA's no longer require hunters to check in and get a permit. Therefore numbers for use and harvest are more estimates rather than known like they used to be.
11	Q2 Fish production was higher than normal.
11	The timing of harvest and distribution of fish from our hatcheries varies from year to year depending on weather conditions and the species of fish being worked with. In the first quarter of FY17, a higher than usual proportion of the smaller and more numerous bluegill and redear sunfish were harvested and distributed in lieu of channel catfish which are much larger and less numerous. This likely will reflect in a lower number of fish being stocked in the second quarter as was originally projected.
12	Q2 The increase is attributed to additional new officers that have been hired and released from training programs for independent patrol.
12	The decrease is due to veteran officers that have recently retired.
14	51 samples were not collected for the NFWF skimmer trawl survey due to mechanical delays and inclement weather.
15	Q2 The enforcement section utilized the slower season to attend a variety of training opportunities.
