SECTION 2

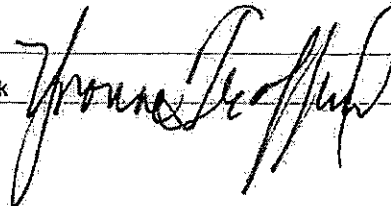

Plan of Action - 5% Reduction of Federal Receipts

A 5% reduction of Federal Receipts would affect Soil & Water Conservation Districts by funds not being there to pay employees to help NRCS with putting conservation practices on the ground to protect our natural resources.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction of Federal Receipts would reduce conservation practices on the ground and result in employees losing their jobs to this reduction. Protecting natural resources would be reduced and this would affect everyone who lives in Alabama.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

1. **Meat Inspection Cooperative Agreement**-With a 5% reduction of federal funds and no additional state funds, we would not be able to adequately carry out the services required. The responsible federal agency within USDA, Food Safety Inspection Service, would consider administering the program in Alabama. 2. **Diagnostic Lab Cooperative Agreement**-Our diagnostic lab is a part of the National Animal Health Laboratory Network (NAHLN). This allows for surge capacity in testing for certain diseases of animals and livestock. With a 5% reduction of federal funds and no additional state funds, the lab system could not participate in the NAHLN, having potentially devastating effects on our nation's food supply. 3. **Animal Health Cooperative Agreement**-These funds are mostly in support of poultry disease response. A 5% reduction would reduce some testing capabilities. 4. **Animal Disease Traceability Cooperative Agreement**-These funds provide education and outreach opportunities for managing the livestock identification database. A 5% reduction would reduce these services. 5. **Pesticides and Plant Grants**-Both programs would proceed. We would adjust flexible categories such as travel, equipment, and supplies. Then we would adjust work schedules to 4 ten hour days.

A 25% reduction, without additional state funds would make it difficult to provide testing services, especially for backyard and hobby poultry farmers. The USDA/APHIS/Veterinary Services would consider taking over these services. 4. **Animal Disease Traceability Cooperative Agreement**-These funds provide education and outreach opportunities for managing the livestock identification database. A 25% reduction, without additional state funds, would end this program. The USDA/APHIS/Veterinary Services would consider taking over these services. 5. **Pesticides and Plant Grants**-Both programs would proceed. We would adjust flexible categories such as travel, equipment, and supplies. Then we would adjust work schedules to 4 ten hour days. The scope of work of each grant would be reduced accordingly.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A 5% reduction would result in the decrease of \$54,882 in Federal Funds. With a cut this size, there would be impacts but probably not at the staffing level. Travel and training expenses would greatly decrease. In addition, we would not look to replace any aging equipment until additional funds were received. Any remaining cuts could be absorbed as part of our 25% required match.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction would result in a decrease of \$274,409 in Federal Funds. With a cut this size in funding, the Medicaid Fraud Control Unit would have to be cut by 3 employees. This would result in a 30% decrease to staffing and impact missions critical in the area of protecting Alabama's vulnerable Medicaid population. These cuts would include the salaries and fringes for two agents and one attorney. In addition, travel expenses would be greatly reduced limiting the opportunities for any training for the existing staff.

SECTION 2

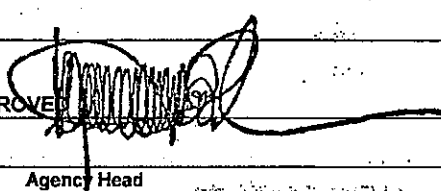

Plan of Action - 5% Reduction of Federal Receipts

A reduction of 5 percent in Federal funding for Commerce, Workforce Development Division would not require an "action plan" as our limited administrative funds are managed in regard to staff levels and other operational cost to remain constant with minor reduction in our Federal workforce funding levels. The Business Development Division's International Trade section would reduce the number of trade guest that could attend an international trade mission by one or two people.

Plan of Action - 25% Reduction of Federal Receipts

A reduction of 25 percent in Federal funding for Commerce, Workforce Development Division would necessitate limited travel by staff, a freeze on hiring, and likely staff reductions - particularly for positions that are vacated by retirements(s) or staff transfers to other agencies. The Business Development Division's International Trade section would require limiting international travel by staff, reduce trade guest travel, and cancel international trade missions. SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

Predicting an impact of 5% is not possible at this time. The terms of each grant vary in match percentage and who provides the match. If the Grant is pass thru funds then the impact would be minimal to DCNR. If the Grant was 100% federal and paid for salaries the impact could result in laying off personnel or reducing services at DCNR.

Plan of Action - 25% Reduction of Federal Receipts

Predicting the impact of a 25% reduction is easier. Conservation services across the state would be scaled back to a level that matches available funding, particularly given that DCNR receives no General Fund appropriation. The specific programs and direct impact is impossible to predict at this time. However, we could expect an economic impact of \$10 to \$20 million depending on who was providing the match.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

The Commission does not receive monies from the General Fund or Education Trust Fund. The General Fund appropriation of (100,000-FY2020) to the Commission from the Legislature went directly to the Victims of Crime and Leniency (VOCAL). All of VOCAL's appropriations from the General Fund comes through this agency. Federal funds that the Commission receives comes via a formula grant provided by the Department of Justice, Office of Victims of Crime. If there were a 5% reduction in federal receipts, the Commission would reduce in-state travel, out-of-state travel, and other equipment purchases to a bare minimum, to ensure there is no reduction of expenditures for victims and the entities that provide goods and services to them.

Plan of Action - 25% Reduction of Federal Receipts

If there were a reduction of 25% of federal funds, the Commission would employ measures to stream-line administrative expenses. The monies saved from administrative expenses would be used to off-set shortages in the federal grant. Specifically, purchase of supplies, and equipment would be reduced. Deferred maintenance would be considered and employed when applicable. A couple of the Commission's automobiles are getting within the age where state directives indicate they should be replaced. However, automobile purchases would be deferred to ensure that the Commission used even less funds in order to accommodate victims and those who provide goods and services to them.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A reduction in federal receipts affect the citizens for Alabama by curtailing services provided by the affected federal program. The majority of federal funds are passed through to entities that provide these necessary program and services. A 5% reduction in federal receipts would reduce administrative costs by \$614,899 based on FY 2020. Depending on the affected federal programs; this reduction would be handled by not replacing staff due to retirements or transfers and reducing travel.

Plan of Action - 25% Reduction of Federal Receipts

As stated above, the majority of our federal receipts are padded through to entities for vital programs and services for our citizens. A 25% reduction in federal receipts would reduce administrative costs by \$3,074,277 based on FY 2020. Depending on the affected federal programs, this would result in travel reductions, a hiring freeze for the program and support staff, not replacing staff due to retirement or transfers and other cost cutting measures. This would be detrimental to the department due to our federal mandates to oversee and monitor these programs.

Attachment I

In general, the Alabama State Department of Education (ALSDE) receives the bulk of its program specific federal funding from three Federal agencies - The Department of Education, Department of Agriculture, and the Social Security Administration. Funding received from the United States Department of Education and United States Department of Agriculture is wrapped around specific program objectives and heavily prescriptive regulations. Most of the federal funding administered through the ALSDE is granted or otherwise distributed to sub-recipients (mostly local school systems) on a formula basis in accordance with the program regulations. Federal program funding is most often targeted towards improving instructional outcomes and supporting our most at-risk and disadvantaged students, as well as students with disabilities. For example, the overall program objective for Title I is to "help, through provision of formula grants, local educational agencies (LEAs) improve teaching and learning in high-poverty schools in particular for children failing, or most at-risk of failing, to meet challenging State academic achievement standards." Also and as an additional example, in FY 2020, the ALSDE administered \$186 million in federal funding for the supplemental provision of special education and related services to children with disabilities throughout Alabama. Program funding from the Social Security Administration is received by the ALSDE to provide reimbursement for necessary costs in making disability determinations for the Federal Government. Common to substantially all federal funds flowing to the ALSDE is the heavy reliance on people to accomplish program objectives. Approximately 14,000 people are currently employed statewide as a result of the federal funding referenced above.

The primary components of a plan to respond to a reduction of 5 or 25 percent or more in the federal receipts would be:

- An evaluation of the program changes, if any, coinciding with the reduction
- An evaluation of the direct program regulations and the interaction with more global regulations in connection with the reduced funding
- Consideration of proposals to seek replacement funding, particularly in instances where service provision requirements remained unchanged (for example - provision of free appropriate public education [FAPE] as required by the Individuals with Disabilities Education Act [IDEA], school food service, etc.)
- Consideration of the impact to related capacity resulting from inherent staff reductions
- Work with school districts to mitigate the negative service impacts from the reduced flow-thru program revenue

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A 5% reduction of Federal Funds will require a proportionate amount of additional funding from the State General Fund.

If additional State General Funds are not available or only partially increased, AEMA will have to lay off personnel to endure the reduction and/or reduce pass-through grants to the counties proportionately to commensurate with overall reduction.

Without additional General Fund appropriations, some statutory responsibilities would be placed at risk, as well as the average disaster reinvestment of \$44,000,000 per year for state, county, and other local organizations.

The reduction of 5% of Federal receipts would result in the loss of approximately 8 FTE's. The Department would negotiate the Federal work plan with EPA to reflect the reduction of the equivalent work in order to maintain primacy. In areas where the reduction is related to permit issuance the Department could increase permit fees to alleviate some of the loss.

Plan of Action - 25% Reduction of Federal Receipts

\$4,024,451.45

The reduction of 25% of Federal receipts would result in the loss of around 40 FTE's. This would significantly affect the Departments ability to fulfill its mission. In order to maintain primacy for the affected Federal programs a significant reduction in the Federal work plan agreement would be necessary. In areas where the reduction is related to permit issuance the Department could increase permit fees to alleviate some of the loss.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

Our federal funding is used to secure props and/or no cost training offered for emergency responders across the state. If those funds were reduced, we would reduce the offerings of free training.

Plan of Action - 25% Reduction of Federal Receipts

As above, the amount of free training that could be provided would be reduced proportionally with the funding reduction. At 25%, we would also postpone large equipment or prop purchases until it could be accommodated in our normal operating budget.

FY2020 Federal Funds					
Received	Received as % of Total State and Federal Budget	Appropriated by Legislature	Expended	Comparison of Receipts to Appropriation	
(3)	(4)	(5)	(6)	(7)	
Total FY2020 Federal Funds	\$2,257,737.00	8%	\$2,256,508.00	\$2,250,916.00	\$1,229.00

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

If the Alabama Department of Forensic Sciences (ADFS) were faced with a 5% reduction in Federal Receipts, the short term and long term impacts to the Justice system and public safety would indeed be significant. ADFS would be forced to develop a Plan of Action to offset a 5% reduction in Federal receipts that would prioritize continuing to meet our Constitutional mandate and still provide basic forensic services statewide, but limit the number of unsolved 'Cold case' sexual assaults and homicides ADFS revisits and subjects to DNA testing due to the reduced availability of Federal funds. While a 5% reduction in Federal receipts may seem negligible in a fiscal sense, the downstream negative impact is substantial and unfortunate as the reduction would also limit ADFS's ability to continue to improve turnaround times across all forensic disciplines, especially in Death Investigation, Drug Chemistry, and Forensic Biology/DNA. Additionally, a 5% reduction may lead to ADFS' failure to meet already promised Federal Goals and Objectives that were previously outlined in an Awarded Grant proposal - thereby severely hampering Alabama's ability to secure future Federal funds for Forensic Science initiatives.

Plan of Action - 25% Reduction of Federal Receipts

If the Alabama Department of Forensic Sciences (ADFS) were faced with a 25% reduction in Federal Receipts, the impacts to the Justice system and public safety would be immediate and substantial. ADFS would be forced to develop a Plan of Action to offset a 25% reduction in Federal receipts that would prioritize continuing to meet our Constitutional mandate and still provide basic forensic services statewide, but would be forced to eliminate our continuing efforts towards backlog reduction, specifically in the areas of Forensic Biology where ongoing testing initiatives surrounding previously untested sexual assault kits and 'Cold Case' homicides would cease and no longer be subjected to DNA testing. The Plan of Action to offset a 25% reduction in Federal receipts would force ADFS to prioritize our efforts on current cases, eliminate the ongoing efforts to revisit 'Cold cases', and limit the inevitable increases in backlogs for many of our forensic disciplines - especially Death Investigation, Drug Chemistry, Firearms and Forensic Biology/DNA. This 25% reduction in Federal receipts would increase turnaround times on forensic casework statewide, and would allow perpetrators of violent crimes to go undetected and possibly re-offend additional citizens throughout Alabama, the impact of which cannot be understated. Additionally, a 25% reduction may lead to ADFS' failure to meet already promised Federal Goals and Objectives that were previously outlined in an Awarded Grant proposal - thereby severely hampering Alabama's ability to secure future Federal funds

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

Five percent of federal funds received is \$197,992. This would not be a significant loss of revenue to our agency's operating plan. This difference would be offset by a reduction of spending in travel, repairs, and/or transportation costs.

Plan of Action - 25% Reduction of Federal Receipts

Twenty-five percent of federal funds received is \$989,960. This would be a significant loss of revenue to our agency's operating plan. This difference would have to be offset by not refilling personnel vacancies as they arise through attrition.

Plan of Action - 5% Reduction of Federal Receipts

Federal funds that come to GSA are generally associated with contracts and grants for specific projects and work activities. These funds are usually generated by our responses to specific Requests for Proposals (RFPs). These funds can, and often do, fluctuate greatly from year to year. We make management decisions based on the portfolio of contracts and grants in hand, as well as those that we can anticipate with some certainty. Thus, planning for a certain percentage of cut in Federal funds, since the amount of funding is not a set amount, does not directly apply to our agency.

AGENCY: Alabama Historical Commission (1)

AGENCY NO: 320 (2)

SECTION 1

FY2020 Federal Funds				
Received	Received as % of Total State and Federal Budget	Appropriated by Legislature	Expended	Comparison of Receipts to Appropriation
(3)	(4)	(5)	(6)	(7)
Total FY2020 Federal Funds \$1,086,636.62	11%	\$880,000.00	\$1,005,964.43	\$206,636.62

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A reduction of 5% in federal receipts would equate to a loss in revenue of \$49,688.91. This reduction would result in the inability for the Alabama Historical Commission to meet the match of federal grants that have been awarded in the past two years for AHC site improvements and preservation grants.

Plan of Action - 25% Reduction of Federal Receipts

A reduction of 25% in federal receipts would equate to a loss of \$248,444.56 for the Alabama Historical Commission. This large of a reduction in federal receipts would result in the agency's ability to meet the State of Alabama's mandate set forth in the National Historic Preservation Act, as amended. The reduction of funds granted to the AHC would result in layoff of federal programmatic staff, as well as a reduction in subgrants to county and local governments.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

DHR has multiple federal funding streams. A number of the grants are reimbursement grants where DHR is reimbursed for eligible expenditures. Examples of this type of grant are Title IV-E (foster care/adoption) and title IV-D (child support enforcement). Other grants are block grants such as Child care Discretionary where DHR is reimbursed for eligible expenditures up to a certain amount (the block grant amount). Any of the block grants could be reduced by 5% and the services funded by that particular grant would be reduced accordingly. However, the state could choose to fund the services with state dollars and in that case the cut in services would not be necessary.

Plan of Action - 25% Reduction of Federal Receipts

DHR has multiple federal funding streams. A number of the grants are reimbursement grants where DHR is reimbursed for eligible expenditures. Examples of this type of grant are Title IV-E (foster care/adoption) and title IV-D (child support enforcement). Other grants are block grants such as Child care Discretionary where DHR is reimbursed for eligible expenditures up to a certain amount (the block grant amount). Any of the block grants could be reduced by 25%. If one of our large federal block grants is reduced by 25%, the program funded by that particular grant would probably no longer exist due to DHR's inability to meet federal requirements for the program receiving the reduction. If state funds are available, the state could appropriate state funds to replace the federal funds cut.

Internet Crimes against Children (ICAC) – A 5% reduction in federal receipts would result in a decrease in the knowledge base of task force members, partners, and affiliates dedicated to reducing the number of internet predators stalking and terrorizing our nation’s children.

State Justice Statistics Program for Statistical Analysis Centers (SAC) – A 5% reduction in federal receipts would slow the development of an integrated criminal data analytics portal for the state of Alabama.

National Criminal History Improvement Program – A 5% reduction in federal receipts would hinder the improvement of both Alabama’s and the Nation’s safety and security by decreasing the enhancement of all aspects of criminal history record information available to law enforcement personnel and the greater criminal justice community.

Support for Adam Walsh Act Implementation Grant Program – A 5% reduction in federal receipts would reduce efforts to protect citizens by registering, monitoring and tracking sex offenders through the Alabama Sex Offender Registration System (ASORS) enhancements.

NICS Act Record Improvement Program – A 5% reduction in federal receipts would impede the improvement of the State’s Computerized Mental Health Registry (MHR) system

Motor Carrier Safety Assistance Program – A 5% reduction in federal receipts would decrease the enforcement of motor vehicle and criminal laws, and as a result, increase the number and severity of traffic crashes involving commercial motor vehicles. This reduction would also decrease the number of roadside inspections, safety presentations, and Compliance Safety and Accountability (CSA) investigations.

Commercial Driver’s License Implementation Program – A 5% reduction in federal receipts would reduce ALEA’s ability to ensure that only qualified drivers are eligible to receive and retain a commercial driver license, and as a result, the State will experience a rise in the number and severity of commercial motor vehicles crashes.

Fatality Analysis Reporting System – A 5% reduction in federal receipts would result in a decrease in the collection and transmission of specific data on traffic fatalities.

High Intensity Drug Trafficking Areas (HIDTA) – A 5% reduction in federal receipts would result in a decrease in resources to federal, state and local agencies used to address specific drug threats.

Coast Guard Grant – A 5% reduction in federal receipts would result in a decrease in safety on Alabama's waterways through a decrease in the amount of resources available to be used for law enforcement, education, and community-oriented activities.

Homeland Security Grant – A 5% reduction in federal receipts will hinder the State of Alabama’s ability to prepare for, prevent, respond to and recover from potential attacks and other hazards. This reduction in federal receipts would adversely affect state agencies, as well as, local agencies receiving Homeland Security Grant funds.

State and Local Implementation Grant Program – A 5% reduction in federal receipts would result in a decrease in resources provided to assist in planning for the nationwide public safety broadband network.

Plan of Action – In the event of a 5% reduction in Federal Receipts the Alabama Law Enforcement Agency would be forced to request an additional \$1,088,265 from the State General Fund to be able to maintain these programs at the same level of service.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A 5% reduction in federal funds would require that the Alabama Public Library Service (APLS) reduce IT services that are provided to the local libraries via the APLS Help Desk; therefore reducing travel costs to APLS as well as possibly reducing Help Desk staffing by not more than two positions. In addition, consultant services directly provided to the local libraries would be reduced, reducing travel costs as well.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction in federal funds would require APLS to implement the above plan, as well as reduce the number of educational and cultural statewide databases that are purchased for Alabama citizens. This would result in a significant reduction of services provided to the citizens of Alabama.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

Federal funds are only available for expenditures made by Medicaid for services under approved State Plan or from Federal Grants for specific purposes defined in the grants. Medicaid does not receive Federal Funds until Medicaid has received State matching funds and incurred qualified expenditures. Federal funds that Medicaid receives can only be spent on Medicaid expenditures. A 5% reduction of Medicaid's federal receipts based on 2020 numbers would amount to \$270,273,049. The reduction in Federal dollars along with the matching reduction in State dollars would result in a total reduction of approximately \$346 million in payments to providers. A cut of this magnitude would result in the elimination of optional programs such as adult orthotics, hospice, adult eyeglasses, PACE, and the elimination of the primary care bump plus an additional across the board cut of approximately 20% of those programs whose rates are not set by State statute or federal requirements.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction in our federal receipts based on 2020 numbers would amount to \$1,351,365,243. A cut of this magnitude would make the Alabama Medicaid program unsustainable due to lack of compliance with Federal provider access requirements.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

- A cut will result in an elimination of 260 Developmental Disability (DD) Waiver slots and an elimination of Living at Home Waiver slots due to 3 staff cut. This would end services for 76 individuals receiving services. This would be a violation of federal law under at least the Federal Medicaid Act, American with Disability and Rehabilitation Act (ADRA), for which the state would be liable.
- Preadmission Screening and Resident Review (PASRR is a federal requirement) is a critical program and the federal government has a 75% match available to states; in order for Medicaid state plan to be approved, states must have a fully operational and funded PASRR Program. If not adequately funded money will be requested from other programs and services.
- Early Intervention and Children Services will have to cut services to 76 children in Alabama, losses could violate Federal law requiring that states level of service must be maintained year to year.
- A cut to Developmental Disability fund would result in a loss of 3 employee positions which would affect Intellectual Disability and Living at Home Waivers, loss would violate Medicaid Act and ADRA; the state would be held liable.
- A cut to Mental Health and Substance Abuse services fund would result in reduction in services or a loss of \$1.70m in Medicaid and other federal funds.

- Developmental Disability section would eliminate 1,315 DD Waiver slots and Living at Home Waiver slots. This would end services for 1,315 individuals currently receiving services. This would be a violation of Federal Medicaid Act, American with Disability and Rehabilitation Act (ADRA), for which the state would be liable.
- Developmental Disability fund would result in a loss of 7 employee positions which would affect Intellectual Disability and Living at Home Waivers, loss would violate Medicaid Act and ADRA, the state would be held liable.
- A reduction in Mental Health and Substance Abuse services fund would result in reduction in prevention and treatment services. An estimated amount of \$16.65m loss in Medicaid and other federal funds.

The limiting factor for repair & maintenance services at National Guard Facilities is the availability of State Matching Funds. Reduced Federal Receipts may begin to negatively impact National Guard Facilities but reductions in State Matching Funds will definitely reduce the ability to perform repairs & maintenance functions at National Guard Facilities (potentially forcing the closure of Facilities) - the REQUIREMENT of receipt of Federal Funding is contingent upon the availability of State Matching Funds at any wholly or partially reimbursed facility.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

With a 5% reduction, the participant base for programs funded by Federal grants would have to be slightly reduced so that variable costs can be reduced. The individuals no longer able to be served by these programs would be returned to an ADOC prison or to the local field office to be supervised under normal supervision techniques. Alabama Certain Enforcement Supervision (ACES) program is a swift, certain, and fair supervision program that operates in 13 counties. The functions of the COSMOSS grant would be eliminated.

*Grants received (\$2,528,974.58) cover more than one fiscal year. The amount shown was the amount available as of 10/1/2019. Unspent amounts carry forward to FY21. Funds for these Department of Justice grants are appropriated by Congress prior to award and have very little risk of being reduced.

Plan of Action - 25% Reduction of Federal Receipts

The ACES program would have to reduce communication and mobile telephone costs which would limit the ability for officers to swiftly impose sanctions. Drug tests expenses would have to be reduced which would result in fewer drug tests being administered. This could result in increased drug use and participants failing the program. An alternative to reducing program wide expenses is to completely cease the program in a few counties and keep the remaining counties whole. The individuals no longer able to be served by these programs would be returned to an ADOC prison or to the local field office to be supervised under normal supervision techniques. The functions of the COSMOSS grant would be eliminated.

In addition, this grant is based on actual costs incurred during a calendar year, not a fiscal year. The Commission interprets the intent of Act 2015-438 to be to communicate to the Joint Fiscal Committee of the Alabama Legislature how much an agency spends of the federal funds it receives and how its federal receipts compare to what was appropriated. NOTE: The agency's total FY 2020 budget amount was \$205,785,906

Plan of Action for Reduction Based on FY 2020 Federal Receipts Attachment #1

Vocational Rehabilitation Program (VR)

The Alabama VR program assists Alabamians with disabilities in achieving independence through employment, thereby reducing dependency on government benefit programs. VR is a cost-sharing program requiring a 21.3% match of non-federal funds.

A reduction of 5% (totaling \$3,386,820) would result in a 9% reduction in the agency's client services budget. A loss of funding at this level would be problematic for the agency to maintain the current level of services to VR consumers, as well as meet the requirement mandated in the Workforce Innovation and Opportunity Act to spend 15% of VR federal grant dollars on the provision of Pre-Employment Transition services. Additionally, the agency would struggle to serve all new eligible individuals in need of services.

A reduction of 25% (totaling \$16,934,100) would result in a 47% decrease in the agency's client services budget. This significant reduction in funding would make it impossible for the agency to sustain current levels of service to VR consumers and meet the requirement mandated in the Workforce Innovation and Opportunity Act. In conditions where the VR program is unable to provide services to individuals with disabilities, federal regulations require the agency to enter an "order of selection." Projections from historical spending indicate that up to 10,000 Alabamians with disabilities would be placed on a waiting list for services until sufficient funds become available. Funding for existing obligations (involving cases opened in a prior fiscal year) would be more than \$2 million short of the required amount.

Hemophilia Program

The Children's Rehabilitation Service Hemophilia Program serves people with bleeding disorders. The Hemophilia Program is a sub-recipient of \$26,200 in federal funds that are awarded by Hemophilia of Georgia to fund the personnel and administrative costs for a nurse.

A reduction of both 5% (totaling \$1,310) and 25% (totaling \$6,550), would result in Children's Rehabilitation Service assuming the amount of the reduction.

OASIS Program

OASIS (Older Alabamians System of Information and Services) is the state's independent living program for older individuals with vision loss.

Funds are used to provide independent-living services, conduct activities that improve or expand services for these individuals, and conduct activities to improve public understanding of the challenges of these individuals. Services are designed to help older Alabamians adjust to their blindness by increasing their ability to care for their individual needs. The aging blind population in Alabama is growing. Providing independent living services and skills training leads to greater independence, and in many cases, helps to keep individuals out of nursing homes. A reduction in older blind funds/services would almost certainly put a strain on programs such as Medicaid, Senior Services, DHR, etc.

A reduction of 5% (totaling \$20,996) would result in the following:

- The elimination of services to 50 individuals, resulting in them not receiving the adaptive aids and/or assistive technology needed to live independently.
- A reduction in the provision of contract orientation and mobility services in already underserved areas.
- A reduction in public awareness activities such as outreach and capacity-building.
- A reduction in travel budgets, resulting in consumers having to find a way to travel to local offices to receive services rather than receiving them in their "natural" environments, which is preferred for optimal success. Many visually-impaired individuals would not be able to travel for services due to transportation challenges.
- A reduction in continuing education and staff training.

A reduction of 25% (totaling \$104,979) would result in the following:

- Elimination of services to 260 individuals, resulting in them not receiving the adaptive aids and/or assistive technology needed to live independently.
 - Some consumers being asked to pay for adaptive aids and/or assistive technology if they were to receive this beneficial service, which is not ideal as most people served are on fixed incomes.
 - Elimination of the provision of contract orientation and mobility services provided to our consumers in underserved areas.
 - Elimination of public awareness activities such as outreach and capacity-building.
 - Significant reduction of travel budgets would result in at least half of the consumers served having to travel to local offices to receive services rather than receiving them in their natural environments, which is preferred for optimal success. Many visually impaired individuals would not be able to travel for services due to a lack of transportation.
 - Elimination of continuing education and staff training.

STAR Program

The Statewide Technology Access and Response (STAR) Program funds services throughout the state to assist people with disabilities in accessing technology and equipment needed to assist them with vocational rehabilitation, independent living and activities of daily living, medical rehabilitation, and other needs. These services are provided primarily through equipment re-utilization centers located throughout the state to make assistive technology and adaptive equipment available in local communities, and by providing equipment for demonstration and loan in order to educate those in need of assistive technology. STAR also assists consumers in obtaining financing for purchases of assistive technology.

A reduction of 5% (totaling \$22,123) could potentially affect our ability to provide long-term support to Community Rehabilitation Programs and assist them in operating re-utilization centers needed to provide access to equipment for people with disabilities statewide. This could also affect our ability to expand these needed services in the future. Lack of access to products needed to accommodate their disabilities create additional financial burdens for consumers who would incur the cost of this adaptive equipment.

A reduction of 25% (totaling \$110,614) could affect our ability to support re-utilization centers located throughout the state. Local funding is also provided for these programs and could potentially be lost if programs are not adequately supported (Community Rehabilitation Programs such as Easter Seals provide significant support for these programs). When unable to access adaptive equipment at no cost, there is a disparate impact on low-income families, people with severe disabilities, and those unable to access health insurance. This reduction could also affect long-term plans for equipment and services needed to provided device demonstration and short-term loan.

Early Intervention (EI)

Alabama's Early Intervention System (ABIS) provides supports and services for infants and toddlers birth through age 2 (0 to 36 months of age) who have a medical diagnosis that can delay normal development or who have a developmental delay causing the child to not meet developmental milestones.

A reduction of 5% (totaling \$438,900) would result in following:

- 92 babies and their families not receiving the services mandated under Part C of the Individuals with Disabilities Education Act (IDEA) for all eligible infants and toddlers (under the age of 3 years).
- Studies show that 85% of a baby's brain is developed by age 3. If these babies who have developmental delays and diagnosed conditions leading to delay do not receive services prior to the age of 3, their delays will increase, they will not be able to enter school ready to learn, their families will not be equipped to take care of them, and they will not receive the supports they need to raise a child with a disability in Alabama. Every child and their family is eligible to receive a combination of 17 mandated services depending upon their evaluation and the plan that is developed to meet their unique needs.
- Referrals continue to increase annually, and more children are being diagnosed with extraordinary disabilities that require increased services and supports. With a reduction, these children will not receive timely assessments and services, procedural safeguard protections, nor will they be guaranteed to receive mandated entitlements under state and federal laws. Due to the mandate, we cannot have a waiting list.

A reduction of 25% (totaling \$2,194,502) would result in the following:

- 459 babies and their families not receiving services mandated under Part C of the Individual with Disabilities Education Act (IDEA) for all eligible infants and toddlers (under 3 years of age).
- Without the services needed, these babies will continue to experience increases in developmental delays and their need for special education services will increase as they enter school.
- Without services, families will not be supported or equipped to take care of their infants and toddlers with disabilities to help them grow, develop and learn.
- Referrals continue to increase annually, and more children are being diagnosed with extraordinary disabilities that require increased services and supports. With a reduction, these children will not receive timely assessments and services, procedural safeguard protections, nor will they be guaranteed to receive mandated entitlements under state and federal laws.
- The effects would be devastating to Alabama's Early Intervention System, eroding the foundation, infrastructure and every component of the system, including:
 - Child Find – our ability to locate infants, toddlers, and their families in need of services as early as possible.
 - Monitoring and supervision – our ability to monitor 50 EI programs to assure compliance with state and federal regulations.
 - Personnel and workforce development – our ability to recruit, train and equip EI providers in the necessary pediatric skills as required in provision of services to this population.

- Family training – our ability to assist families in the management of their child’s unique disability as well as other essential functions of Alabama’s system. Families will not have the skills they need to help their children grow and develop to reach their greatest potential.
- Babies and families would not get the services they need (as stated above), and providers would not be able to serve babies and families at reduced rates that currently do not meet their average costs for serving children with disabilities.
- If infants, toddlers, and families entitled to services under IDEA cannot be served, more families will seek legal resolution, leading to an additional expense and litigation.
- Federal funding could be jeopardized due to the inability to meet the requirements of federal and state regulations.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A 5% reduction of federal receipts or approximately \$1,599,232 could potentially impact ADSS' programs as follows:

- (1) Funding for Older American Act Programs would be reduced by about \$1,393,126.
 - (a) The Title III Elderly Nutrition Program would be cut approximately \$964,440 potentially resulting in 251,812 fewer meals served.
 - (b) The Title III Caregiver program would be cut approximately \$144,782 resulting in a reduction of services to Caregivers such as respite and caregiver education.
 - (c) Title III B Supplemental Services would be cut approximately \$283,904 resulting in a reduction of services to the Elderly such as in-home services, case management, transportation, and legal.
- (2) Funding for Senior Community Service Employment Program would be reduced by about \$71,131
 - (a) This could result in about 8 fewer slots being funded statewide or a possible reduction in available work hours to existing participants.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction of federal receipts or approximately \$7,996,159 could potentially impact ADSS' programs as follows:

- (1) Funding for Older American Act Programs would be reduced by about \$6,965,631
 - (a) The Title III Elderly Nutrition Program would be cut approximately \$4,822,200 potentially resulting in 1,259,060 fewer meals served.
 - (b) The Title III Caregiver program would be cut approximately \$723,910 resulting in a reduction of services to Caregivers such as respite and caregiver education.
 - (c) Title III B Supplemental Services would be cut approximately \$1,419,521 resulting in a reduction of services to the Elderly such as in-home services, case management, transportation, and legal.
- (2) Funding for Senior Community Service Employment Program would be reduced by about \$355,653

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

The majority of federal funds received by the Governor's Office of Volunteer Services directly benefit community-based State AmeriCorps programs. A 5% reduction could be absorbed in the AmeriCorps grant portfolio. A 5% reduction could also be absorbed in the management of the State AmeriCorps program. These reductions would result in fewer on-site monitoring visits, trainings, technical assistance, outreach, and technology (hardware and software) needed to support operations but would not affect staffing. Other federal funding received is for FEMA Disaster Case Management, which is episodic, and occurs in cases of federal declared disasters. The scope of funding depends on the magnitude of the disaster. The Governor's Office of Volunteer Services currently has 6 FTEs and 1 PT retired state employee.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction of federal funds would heavily affect the number of community-based State AmeriCorps programs that are funded annually and it would cause a deep reduction in operational funds, including staffing, technology needs, and necessary travel to monitor federal funded programs. A 25% reduction would impact the ability to perform a core function of supporting a network of AmeriCorps members who help organizations expand their capacity to meet Alabama's greatest needs: education, health care, substance abuse, homelessness, and maintaining a healthy environment. A 25% reduction would impact other core functions that relate to supporting the State Emergency Operations Plan for Volunteer and Donations management, the State Voluntary Agency Liaison, and Individual and Community Preparedness including staffing cuts, technology needs, necessary travel for disaster response and recovery, and local training for emergency managers, faith-based and voluntary agencies, and the general public (i.e. families, school-aged children, and seniors). A reduction in funding would hinder efforts to support local communities who could be mobilized in times of disaster.

A 5% reduction in federal receipts would affect local Soil and Water Conservation Districts ability to contract with farmers to apply conservation practices on-the-ground for irrigation of crops and control of Feral Swine.

Plan of Action - 25% Reduction of Federal Receipts

A 25% reduction of federal receipts will have the same effect as the 5% reduction plus: employees would lose their jobs; application of conservation practices on-the-ground would be greatly reduced; and protection of natural resources would be negatively impacted. SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

The Alabama Surface Mining Commission (ASMC) operates based on a 50% cost share agreement with the Office of Surface Mining and Reclamation (OSMRE). The budgeted federal funds are based on the submitted annual budget for the respective year. During FY 2020, ASMC received reimbursements equal to 50% of expenditures. Actual federal funds received for FY 2020 totaled \$1,282,497, of which a 5% reduction would have totaled \$64,125. In FY 2019 and FY 2020, ASMC has conducted strategic reviews of internal processes and expenditures in order to lower manpower requirements as well as improving controls over expenditures. As a result, the current ASMC budget is tight and a 5% reduction would significantly affected our ability to operate effectively and serve our agency mission. While the number may not be considered major, more than likely, this level of reduction would result a staff decrease increasing the work load on remaining personnel.

Plan of Action - 25% Reduction of Federal Receipts

The effects of a 25% reduction in federal funds considered with the fact that ASMC has little opportunity to generate additional revenues through fees and assessments, would result in a takeover of the Agency by the Federal Office of Surface Mining and Enforcement. ASMC would not be able to accomplish its objectives. Under this scenario, Alabama would no longer have primacy, or control, over our own State mining operations, but would have to defer to Federal control. A 25% reduction would total \$256,500, an amount that would halt current operations primarily from having to reduce staff levels from 21.75 FTE to approximately 15 FTE which is a reduction of 6.75 FTE. Our mission is to oversee surface mining activity while ensuring the protection of the environmental beauty of Alabama. We do not want to relinquish this control to a Federal agency that would operate outside the State's oversight.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

Because federal funds are received as a portion of veterans' daily rate for state veteran home long-term care, these federally mandated funds must be for veteran residents. If for some reason the federal VA reduced the federal share, either the state or residents would be required to cover the difference. Federal funds are also received to offset the expense of burials at the state's veteran cemetery. If the federal VA reduced this reimbursement, the state would absorb the entire cost of burials.

SECTION 2

Plan of Action - 5% Reduction of Federal Receipts

A reduction of \$723K federal dollars would have to be made up by asking the legislature for additional ETF or Childrens First dollars or be absorbed by our existing budget. The Department is already facing a reduction of over \$400k by losing the USDA Child Nutrition Program funding which is having to be absorbed by the current year budget.

Plan of Action - 25% Reduction of Federal Receipts

A reduction of \$3.6M federal dollars would have to be made up using state dollars that would normally be used in Community Diversion Grants. These diversion grants give the local courts an alternative to sending the low to medium risk child to the Department of Youth Services. With this loss in funding, students could lose access to community diversion programs and could potentially be committed to DYS custody. DYS does not have the capacity for this increase and therefore the waiting list for services could potentially grow.

Note: DYS does not receive any direct federal funding. The funds above come through other state agencies such as Medicaid, Dept. of Ed., ADECA only after the delivery of services. These funds may be reported on those agencies form as well.
