If you are unsure whether a line exists in the Operations Plan, run the AFIN-BUD-004 Budget Management report or the AFIN-BUD-013 Operation Plan Status report using infoAdvantage.

Step 6. Select the appropriate **Type** and it will populate in the form.

Step 8. Enter an explanation for this revision in the **Justification Line Text column**. The information typed into this field will display in the **Objective** field on the top of Form 8. The justification should be entered only once for an Appropriation Class, Function, Fund and Appropriation Unit combination. If entered more than once, the justification will populate multiple times on the same Form 8.

The image shows a screenshot of a software interface. At the top, there are three window control icons (minimize, maximize, close). Below them is a header bar with the text "Justification Line Text". Underneath the header is a large, empty text input area. A red arrow points upwards from the bottom center of this input area. At the very bottom of the screenshot, a portion of a text box is visible, containing the text "To move budget authority from in-state trav".

Step 9. Click **Save** and the **Action was Successful** message will display.

FORM 9 – POSITION CHANGES TAB

If a revision requires changes to personnel cost (salaries), it is recommended that you use the **Form 9 Position Changes tab** to ensure the Form 9 automatically generated during the revision process will agree to the total personnel costs in the Operations Plan at the agency level. However, you may revise object 0100 by keying directly on the Form 8 in the budgeting application. If you choose the latter option, you will need to create a Form 9 manually on the forms posted on the EBO website and attach it to the revision.

The **Position Change Tab** is used along with the Salaries Benefits Forecasting System (SBFS) projections commonly referred to as the SBFS Data Dump Report. However, you must run the SBFS report through infoAdvantage (see the section for Running Reports through infoAdvantage).

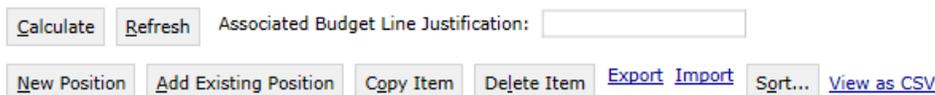

The SBFS projection proposes salaries (including longevity and merit raises, if eligible), Social Security and Medicare (FICA), retirement and insurance. The projection DOES NOT calculate overtime costs, subsistence pay, termination costs or FICA on instate travel, so be sure to include these planned expenditures, if necessary, on the Form 8 Operations Plan tab.

1. Select the **Form 9 Position Changes Tab**.

A. REMOVE AN EMPLOYEE

2. To remove an employee, click on **Add Existing Position**.

Step 5. Update the **Type** field.

The **Type** field is used to either add a new line in the Operations Plan (NEW) or modify (MOD) an existing line. If you are unsure whether a line exists in the Operations Plan, run the AFIN-BUD-004 Budget Management report or the AFIN-BUD-013 Operation Plan Status report using infoAdvantage.

Step 6. Right click in the **Type** field, then click Search  for the **Type** options to appear.

Step 27. Click [Save](#)  and determine if the **Action was Successful**.

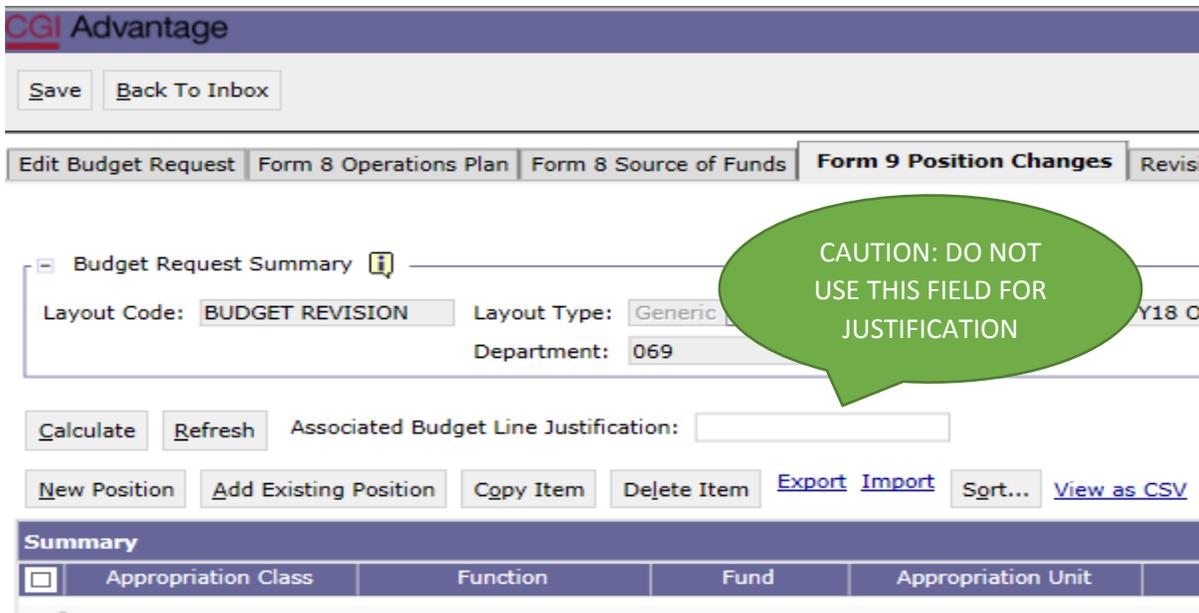

NOTES:

The same process would need to be followed to add an employee that is being moved between chart of account elements. Because the employee is actually assigned to certain chart of account elements, you may remove the specific employee, but a specific employee may not be added to a different chart of accounts grouping and must be added using the classification field. Therefore, when removing specific employees, be sure to make note of the classification, grade, step, and category when adding back the employee. This will ensure that amounts removed from one chart of account element is the same amount when adding the employee back using different chart of accounts elements.

To make adjustments for a promotion, REMOVE the specific employee (i.e. remember to use a negative number in the “count” field to subtract) for the dates desired, then create another line to ADD the employee back using the new classification, step, category and appropriate dates, along with the chart of account element combination the employee needs to be budgeted in.

Form 9 is required for all revisions that change personnel cost (object 0100). It is not a requirement to manually complete and submit a Form 9 with each revision forwarded to EBO. However, for record keeping purposes at the agency, you may decide to keep documentation of all personnel changes made through revisions in STAARS Performance Budgeting. A complete Form 9 will never be available through STAARS Performance Budgeting or infoAdvantage except at the beginning of Operations Plan cycle.

DO NOT USE THE ASSOCIATED BUDGET LINE JUSTIFICATION FIELD IN THE FORM 9 POSITION CHANGES TAB. CONTINUE TO PROVIDE JUSTIFICATION FOR REVISIONS USING THE REVISIONS JUSTIFICATION TAB.
