PERFORMANCE BUDGETING (PB) MANUAL  
FOR STAARS

**STATE OF ALABAMA ACCOUNTING AND RESOURCE SYSTEM (STAARS)**  
**OPERATIONS PLAN MANUAL**  
**FOR STATE AGENCIES**

**Welcome to STAARS Performance Budgeting!** STAARS Budgeting is the system of record for budgeting for the State of Alabama. State agencies will continue to complete operations plan forms 8 and 9 using tabs within STAARS Budgeting. These forms will be rolled up to create the department Operations Plan packet that will be submitted to the Executive Budget Office through electronic workflow.

OPERATIONS PLAN FORMS

- Form 8 – Summary Operations Plan (system generated)
- Form 8 – Function and Fund Level
- Form 9 – Staffing Plan

**Note:** Form 9-Staffing Plan will be automatically generated by STAARS Budgeting. However, if your agency selects to modify object 0100 for Personnel Cost by keying directly on the Form 8 in PB, an updated Form 9 should be added the Document Management tab for submission to EBO. You may find a template on EBO’s website.

**To Access STAARS Performance Budgeting (PB):**

STAARS Budgeting has a separate login URL and screen than STAARS Financials. Access to two different areas of STAARS will be required to complete your agencies Operation Plan. Operations Plan forms will be completed in the STAARS Performance Budgeting (PB) application. Once all forms are complete, access to STAARS infoAdvantage will be necessary to run the Operations Plan Packet generated in PB.

To access Performance Budgeting (PB)                    <https://budget.staars.alabama.gov>

To access reports in infoAdvantage                    <https://infoadv.staars.alabama.gov/BOE/BI>

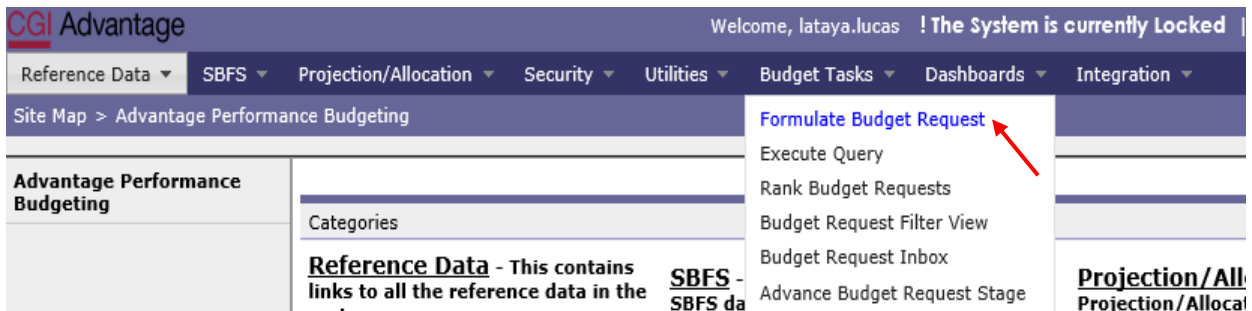

Agencies with access to STAARS Financials should access infoAdvantage through Financials.

Please contact STAARS Support at 334-353-9000 or [STAARS.Support@Finance.Alabama.gov](mailto:STAARS.Support@Finance.Alabama.gov) for login or password assistance.

## FORM 8 OPERATIONS PLAN TAB

**Step 1.** Select the **Form 8 Operations Plan** tab.

Once the tab opens, there will be data that has been prepopulated into budget objects for personnel and benefits. The information was generated from the SBFS or Data Dump which ultimately comes from GHRIS payroll at June 1<sup>st</sup>.

**Agencies can make corrections directly on the Form 8 tab for all budget objects, including payroll and benefits or select to update the Data Dump prepopulated totals through the Position Lines tab.** Using the Position Lines tab will keep the Form 9 Staffing Plan in balance with the Form 8 Operations Plan and PB will automatically create the Form 9. If agencies select to update personnel cost by keying directly on the Form 8 tab, a separate Form 9 Staffing Plan will need to be added to the Document Management tab for submission to EBO. A Form 9 template can be found on the EBO website under Document and Forms.

**Step 2.** Enter correct dollar amounts in the **Ops Plan FY Q1 through Q4** column. If there are pre-existing amounts from the SBFS (Data Dump) in the First Quarter column, PB will add the amount keyed in the Ops Plan FY Q1 column **to** the amount in the First Quarter column and show the summed result for all four quarters in the Total column.

**Step 3.** Click **New Item** to insert a line to add additional Budget Objects required for your agency. Our recommendation is for agencies to enter all lines (0100 through 1600) with zero if there are no anticipated expenses. Doing so, will mean that all revisions during the fiscal year would be coded as MOD and not NEW. This would also eliminate errors when processing revisions.

**Step 4.** Enter correct dollar amounts in the **Ops Plan FY Q1 through Q4** column.

**Step 5.** Click **Save** to review the totals for each quarter. **Action was Successful** message will also appear.

## FORM 9 – POSITION LINES TAB

If the Form 8 requires changes to personnel costs that affect salaries, you may select to use the **Position Lines tab** to ensure the Form 9 automatically generated will agree to the total personnel costs in the Operations Plan at the agency level.

The **Position Lines Tab** is used along with the Salaries Benefits Forecasting System (SBFS) projections commonly referred to as the SBFS Data Dump Report. However, you must run the SBFS report through infoAdvantage to review the details.

The SBFS projects salaries (including longevity and merit raises, if eligible), Social Security and Medicare (FICA), retirement and insurance. The projection DOES NOT calculate overtime costs, subsistence pay, termination costs or FICA on instate travel, so be sure to include these planned expenditures, if necessary, on the Form 8 Operations Plan tab.

**Make note that the ONLY way to change Object 0104 and keep the Form 9 in balance is through the Position Lines tab. Adding an amount directly on the Form 8 will cause the infoAdvantage generated Form 9 to NOT be in agreement with personnel cost. Agencies will need to submit a separate Form 9 that agrees with the personnel cost reflected in the Operations Plan.**

**Step 1.** Select the **Form 9 Position Lines** Tab.

### A. REMOVE AN EMPLOYEE

**Step 2.** To remove an employee from one chart of account to another, click on **Add Existing Position**.

**Step 18.** In the **FTE** field, enter the desired FTE percentage:

FTE	Count	Salary Percentage	Benefit Percentage

- 1 for a full-time employee
- .75 for a 75% part-time employee
- .50 for a 50% part-time employee
- .25 for a 25% part-time employee
- Or any other desired FTE percentage

**Step 19.** In the **Count** field, enter the number of employees that will be hired at this rate.

FTE	Count	Salary Percentage	Benefit Percentage
1	1	100	100

**Step 25.** In the **Salary Percentage** field you will need to key the equivalent percent for the FTE keyed (Step 18). If nothing is entered, both percentages will automatically calculate at 100%.

Salary Percentage	Calculated Salary	Current Salary	Cost
100	-36,491		-56,067

**Step 26.** Once all fields have been added, click **Calculate**.

**Step 27.** Click **Save** and determine if the **Action was Successful**.

**NOTE:**

The same process would need to be followed to add an employee that is being moved from another set of chart of accounts elements. Because the employee is actually assigned to certain chart of account elements, you may remove the specific employee, but a specific employee may not be added to a different chart of accounts grouping and must be added using the classification. Therefore, when removing specific employees, be sure to make note of the classification, grade, step, and category when adding back the employee. This will ensure that amounts removed from one set of chart of accounts elements is the same amount added to a different set of chart of accounts elements.

To make adjustments for a promotion, REMOVE the specific employee for the dates desired, then create another line to ADD the employee back using the new classification, step, and category.
