| Improved quality and efficiency of research facilities as assessed by research productivity, competitive research grants and contracts volume/ aggregate funding level, patents and licensure activity, academic achievement for graduate and undergraduate students, the science and mathematics competency of participating K-12 teachers, the acquisition and use of inquiry-based K-12 instructional resources, and the corresponding performance of K-12 students, and contributions to science and technology small (incubator) business development. | % of completion | 40% | 45% | 40% | | 45% | | 45% | | 45% | |
| 4. Provide opportunities for greater interdisciplinary collaborations by establishing a single facility to house multi-disciplinary research centers; thereby, enabling the linkage of basic and applied research and development activities; the production and promotion of significant technological innovations; as well as the rapid transfer of resulting products into science, mathematics, technology and engineering teaching and learning programs-- in particular, programs that document learning gains among participating K-12 students. | % of Completion | 25% | 25% | 25% | | 30% | | 30% | | 30% | |
